

Here is what attendees at Alec's sessions are saying

“If more of my teachers had been like Alec I would have enjoyed high school more!”

“Excellent training session...”

“Well presented...”

“Humorous and interactive”

Alec teaches the practical skills you can use right away and every day.

Alec is a senior Behavior Based Safety consultant and for the past twelve years he has assisted a wide range of companies across Canada and the United States. He brings a variety of experience from his full implementation of Behavior Based Safety programs at Cargill, GM, Hotels, Pulp and Paper, Provincial Power and Hydro companies to name a few.

Alec is a key facilitator at the SafeTrack Observer Training across Canada as well as at SafeStart: Safety Awareness implementations.

Experience in health and safety that spans more than 30 years (including nineteen years at IAPA), provides Alec with the ability to assist and advise upper management, supervision and unions.

His delivery of participative workshops reaches people on a very human level. Learners take away practical skills they can use every day. Alec is one of our busiest consultants on staff.

Behavior Based Safety Observation Workshop – Training Anyone Can Use Back On The Job!

Learn more than just what behavior based safety is all about. Learn what skill sets are required to make the initiative successful. This is training anyone can use back on the job!

This Observer Training Workshop covers: types of observations; observation skills' positive correction techniques; positive reinforcement; tracking observations and intervention strategies.
