

Here is what attendees at Bryan's sessions are saying

"This was the most enjoyable safety training class that I have ever been to! Good job!"

"Great session."

"Well presented class!! Great job!"

Bryan Glossop

Bryan's areas of responsibility ran 7.9 million hours without a lost time accident and reduced injury rates by 71.5%.

Bryan is a Northern Illinois University graduate with a B. S degree in Business Management. He worked over 31 years for John Deere until retiring in 2001. During his tenure at John Deere, Bryan held management positions at 5 different manufacturing units ranging in size from 740 to 3,650 employees. Bryan's last assignment prior to retirement was as the Safety & Training Manager for the John Deere Seeding Group. The Seeding Group consisted of four manufacturing units in multiple states. While managing safety, his areas of responsibility ran 7.9 million hours without a lost time accident and reduced injury rates by 71.5%. Bryan is a certified trainer and has always loved sharing his expertise with others. Having given well over 350 training classes, Bryan brings a wealth of experience to each training session. In addition to his training Bryan has also been a speaker at several national conferences such as the National Safety Congress, ASSE and Associated Employers. Bryan is now the president of Safety & Training Solutions, Inc.
