

Here is what attendees at Gary's sessions are saying

Your "Breaking the Cycle of Risky Behaviors" session is brilliant. Best stuff I've read in the trade literature about safety in my 17 years in EHS.

Gary was great and I was very impressed with his knowledge, presentation style, and passion about the field of Health and Safety!

Gary Higbee, CSP MBA

Gary has become a nationally known speaker on safety, health, environmental and business issues

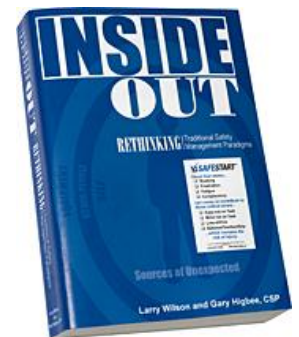

Gary A. Higbee CSP, MBA and Vietnam Era Veteran, worked for over 32 years for John Deere & Company where he held assignments in safety, environmental, production and engineering. He was also the Corporate Safety Director for Maytag and Manager of Health, Safety & Environmental for the Budd Company Stamping and Frame Division.

Gary is a board Certified Safety Professional and has an MBA from the University of Iowa. Currently he is working towards a Ph.D. in Industrial Technology at Iowa State University.

Gary was recently awarded the 2010 Distinguished Service to Safety Award by the National Safety Council. This award is given to fewer than a dozen recipients annually throughout the world, and it recognizes individuals who have provided outstanding service to the Council, their employer, their community and other organizations in the name of Health & Safety. He has also been the recipient in the past as the Safety Professional of the Year by Region IV of the American Society of Safety Engineers. He is past chairman and long time member of the National Safety Council's Automotive, Tooling and Metal Working Section Executive Board. Gary is also active as an adjunct Professor at Iowa State University; business and safety consultant; and expert witness.

Using close to 40 years of experience and a dry sense of humor Gary has become a nationally known speaker on safety, health, environmental and business issues.

In addition to being the author of several published articles, Gary is the co-author of the book, "Inside Out – Totally Rethinking Safety Management Paradigms" due to be released in 2012.
