

Here is what attendees at Tim's sessions are saying

"You've got the BEST safety class that I've attended in over thirty years! Keep up the great work!!"

Mel Talbot
Florida Mining Company

"Tim is great! He commands attention, has great control of participants in his training sessions making sure they get the most out of their experience"

Larry Wilson

With over 11 years of occupational health, safety and environmental management experience coupled with a Humanitarian Service Medal from the United States Marine Corps, Tim is dedicated to on and off the job injury prevention and environmental conservation.

His industry accomplishments include certification as an OSHA instructor, Asbestos Inspector/Management Planner, Hazwoper Instructor, California Specialized Training Institute Instructor and California Fire Marshal Instructor.

Tim's training sessions are energetic, entertaining and informative. Participants will benefit from his passion for training and his unique ability to immediately put his audience at ease through humor and personal life experiences. He is a Desert Storm/Desert Shield veteran, earned combat action, good conduct awards and an Honorable Discharge.

Tim is a professional member of the ASSE, NSC, AIHA and past chair of the South West Safety Congress. He is a published author of articles featured in industry magazines including Coatings Pro Magazine, Professional Safety Magazine, The Journal of Environmental Management and the California Water Environment Association Flowline.

Using Humor in Safety

Are your safety and health presentations drab and dreary? Do your employees leave with more questions unanswered than answered? Spruce them up with a little humor.

This presentation will help you preserve the Cal-OSHA requirements by making them stick, and ensuring that the requirements don't go through one ear and out the other (or many ears). The presenter will show video clips that can make an emotional impact on any employee. There will be emotional ups and downs to show the audience that people react differently to changing workplace hazards. This presentation will also provide information on taking safety home and how safety impacts more than just the workforce-it impacts the family.
