

Wilson Bateman

Wilson is a graduate of the Ryerson Polytechnical University Occupational Health & Safety Certificate Program (1989), and the Humber College Certificate of Achievement Occupational Hygiene and Safety Program with Honours (1991). Wilson also has formal training in Adult Education and Human Resources Management.

Wilson has been engaged in the safety field for more than 10 years. His experience includes: Manager of Atlantic Operations for Liberty Risk Services, Director of Safety for the Nova Scotia Safety Council, and Director WCTS Safety Training Services.

He has provided training services across Canada in a variety of industries including: pulp & paper, forestry, saw mills and logging operations, federal and provincial government organizations, manufacturing and the service industry. He has also provided consulting and auditing services. Wilson has designed training programs for the above mention industry groups. One such program was the Professional Certificate program for the Nova Scotia Safety Council.

In the last 4 years Wilson has been working with supervisors and managers to develop standards around manager / supervisor Due Diligence. His two day Due Diligence for Managers and Supervisors has been used as a standard. Wilson has been a guest speaker at numerous conferences on a wide range of issues including Behavior Based Safety, Student Worker Orientation, Due Diligence, Internal Responsibility System and Safety Committees. Wilson's presentations have been described as thought provoking., interesting, and informative. He keeps the audience's attention using actual cases and the proper amount of humor.

Here is what attendees at Wilson's sessions are saying

“Confident, approachable & knowledgeable speaker.”

“He is one of our most in demand presenters. We have had clients reschedule their training by a few months to ensure Wilson is presenting!”
~ Jackie Norman,
Executive Director Nova Scotia Safety Council
